6. JOB Application - Zoho Creator Command Center Page

Aim:

To design and build a single internal "Command Center" Page in Zoho Creator for the existing **"Job Application"** application, demonstrating the correct usage of all eleven Page Builder elements (Panel, Board, Chart, Gauge, Search, Form, Report, Snippets, Button, Widgets, and Viewer) so that the Loan Processing Cell has one unified workspace to monitor, manage, and act on loan application data.
